

## Welcome to NETRONIC at the CeBIT 2010 in Hannover, Germany

From March 2-6 NETRONIC Software GmbH we will present their latest developments of GRANEDA Dynamic project charting software at the CeBIT trade show in Hannover, Germany. Please look for us at in hall 5, booth G22 and we will demonstrate how you can quickly get your projects into perfect shape.

## GRANEDA Dynamic News Group at the Business Network XING

By initiating the GRANEDA Dynamic users' group at [www.xing.de](http://www.xing.de) a long-standing demand for cross-linked knowledge exchange between users has been met. The forum is designed for project managers and project staff who either already work with the GRANEDA Dynamic charting software or who are interested in a future use and in getting informed on the possible fields of application and on the benefits of the software.

- Please report on your GRANEDA Dynamic operating experience.
- How do you get to the chart that you want? ▶ Ask the group!
- You don't find an interface to your project data? ▶ Ask the group!
- Propose new functions and suggest possible enhancements of the software.
- Tell your GRANEDA Dynamic inside story and talk about your first-hand experience.

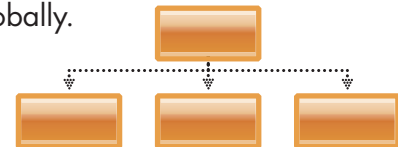

Your GRANEDA team would greatly appreciate if you joined the group. You can get there immediately by this link: [www.xing.com/group-51542.a695bc](http://www.xing.com/group-51542.a695bc)

## The Evolution of GRANEDA Dynamic 4.1

Our developers remain active also between the releases of our software. GRANEDA Dynamic 4.1 is tested and details are optimized continuously. The latest build number 4.100.1104.0 in February 2010 enhanced the preceding build of November 2009:

- In all GSP select dialogs the options diagram types, filtering and write protection are available now.
- When selecting the display type in trial mode, the selected type can be viewed in advance.
- The default directories of GRANEDA can now be modified globally.
- All dialogs that allow to select a date now also display calendar weeks.

## GRANEDA Dynamic 4.1 Users' Seminars

For a quick start of GRANEDA Dynamic, we recommend our users' seminars and work shops. The next training course will take place in Aachen on May 4<sup>th</sup> and 5<sup>th</sup>, 2010. Alternatively, we can make an appointment at your premises. More information at [www.netronic.com](http://www.netronic.com).

## Kaleidoscope of New Customers Using „Work Breakdown Structures“
